VEGETABLE SEEDS

Of Proven Merit

Our seeds are truly bred from parents that meet requirements 100%. Single plant selections are made each year and the seed you get is directly descended from these perfect plants.

Strong germination is provided for by proper harvesting, cleaning and grading operations. Four to five tests are made of each seed lot. Seed that satisfactorily passes those tests has the vitality to make good growth in your fields under fair conditions of temperature and moisture.

Prices are subject to change.

NEW VARIETIES FOR 1957

These new varieties are worth your serious consideration, at least on a limited basis.

Radish Champion—All-America for 1957

Champion is described as the king size edition of Cherry Belle. A clear bright scarlet, round or ball shaped of about the diameter of a silver dollar. Quality is excellent and it stands a long time and to large size without getting pithy. Its rich scarlet color gives Champion a decided advantage over Crimson Giant. May be sown early while ground is cold and still make good tops for bunching.

oz. 20c, $\frac{1}{4}$ lb. 65c, 1 lb. \$2.00, 10 lbs. @ \$1.90 lb.

Comet. 24 days. Deep globe radish with medium tops. Bright color and keeping quality makes Comet ideal for "cello pack".

VITA-BANDS—Treated

Vita-Band D goes right into the soil with the plants. No need to remove them as band disintegrates in the soil. Speeds up planting. Just squeeze the band to crack it, set in and the plant suffers no setback.

No. H is the band to use for extra long growing periods. The successor to No. 40 as a solidly constructed, nutrient treated band. Roots will not break through before transplanting.

No. 10 is the lighter band for growing periods to 10 weeks.

Prices per 1000 apply only on case lots.
